Made in Germany

The Art of Engineering – Made in Germany

viveroo is an international technology enterprise headquartered in Salzkotten, Germany. As a manufacturer of wall and furniture mounts for the Apple iPad, viveroo adapts to fit your living or working environment perfectly. We are driven by dedication and passion, and our mission is to develop innovative products that fascinate and inspire people all over the world.

We provide solutions to optimize iPad use in personal as well as commercial settings. In this brochure, you will find out more about our values and the wide range of applications for our products.

“True simplicity is derived from so much more than just the absence of clutter and ornamentation. It’s about bringing order to complexity.”

Jonathan Ive (Apple Chief Design Officer)

Highest Quality to Fit Any Budget

viveroo adheres to the highest of standards in quality. We make sophisticated and high-quality products by hand to ensure precision and accuracy. We source high-grade material from local providers to ensure our mechanics, fashioned after the quality of a fine Swiss watch, meet the standards you would expect from a German product. For viveroo, sustainability means one thing above all: No plastics. Leave the disposable world behind with our products, which are made

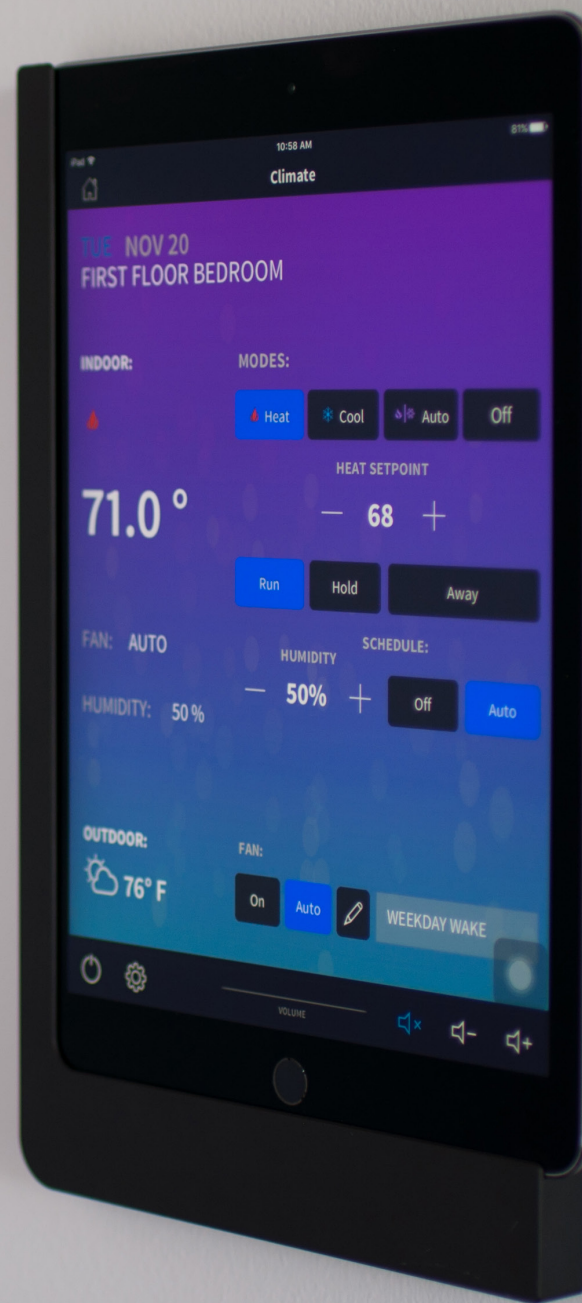

of 91% recyclable materials. Another important factor in sustainability is longevity. viveroo products are built to withstand the stresses of the modern world with high-quality, stylish, and future-proof design.

viveroo products are always adapting to our clients' needs. As we continue to develop new products, we keep you in mind, and work closely with every customer to develop custom solutions. No matter how you use your iPad, viveroo iPad mounts will be there.

Wall Mounting

viveroo products integrate the iPad into walls with style. Flush-surface or on wall installation: We have the perfect solution for every situation.

The iPad Mount for all iPad Generations

Viveroo iPad mounts fit all of our clients' needs. Viveroo products offer portrait and landscape mounting options, and the ability to easily remove your iPad for instant mobility, and secure your iPad with an optional locking system.

Cable Based Network Connection and PoE

If desired, the iPad can be connected to your network via an Ethernet adapter for a fast and reliable data connection. In addition, we offer installation kits for power supply via PoE.

Simple and Timeless Design

With architectural-grade timeless design, the vivroo free seems to float in front of the wall a slender aluminum design and open, asymmetrical form epitomize minimalism and elegance.

Media Control

The iPad turns into a multi-function control system when coupled with the viveroo holder and opens new possibilities in the conference room. Whether controlling state-of-the-art media technology or initiating a video teleconference call, the viveroo wall mount or table mount combined with the iPad create the ultimate synergy between form and function.

one

Minimalist Design

The iPad and wall mount unite within a high-quality aluminum body that encloses the iPad precisely and holds it firmly against the wall. The thin frame preserves the all-screen design of the iPad Pro and complete display space is usable without restriction.

Safely Held and Protected

The iPad is securely held in the wall mount. Once plugged in, it is fixed and locked with a special screw cap. In addition, all ports and buttons of the iPad are hidden and protected.

Powered and Connected

Due to the continuous power supply, the iPad is always charged. For fast data transfer, the iPad can be connected to the network via cable. Thanks to a modern PoE connection, only one cable is needed to charge and provide network connectivity to the iPad.

one kiosk

Safe and Sturdy

The Viveroo One Kiosk is made from solid aluminum, a high-quality material, and is milled through a precise process ensuring the mount provides optimal protection for the use in public areas. The One Kiosk fully envelops the iPad and can be locked secure, while still being easily removed with a special key.

Technology and Design

The mount ensures a fully charged iPad with a constant power supply. The optional use of a PoE adapter offers a high-speed and reliable data connection. Our distinctive design shields all cables and connectors inside the One Kiosk. The design of the mount fits perfectly in any environment, and keeps spaces from being cluttered.

Options to Fit Your Needs

Since every installation environment is different, Viveroo offers various solutions to integrate the iPad into a powerful Point of Sales tool. With simple installation and a wide variety of functions, the Viveroo One Kiosk is always the perfect choice.

Scanning Function

With the help of our custom back scanning device, the iPad's camera can be used to scan codes. This upgrade seamlessly aids in visitor registration, and self-service systems in retail and hospitality.

One of a Kind

The only rotating iPad mount in the world. With wall flush mount and furniture mount option, the innovative rotating mechanism makes it possible to alternate between vertical and horizontal formats. Every app can be used in its ideal format.

High Design Aspirations

Art of engineering - Made in Germany. Exquisite surfaces, made of high-quality materials such as glass and aluminum, unified in a pure, timeless design.

The interior is just as elegant as the exterior with engineered aluminum mechanisms, and intelligent design. Individual pieces are changed in just a few steps, adapting loop and square to future iPad generations.

Vertical or Horizontal:

loop's highlight is its rotating feature: One finger turns it 90 degrees and thanks to the soft close function, the iPad slides into the perfect position. One of a kind worldwide, there is no other like it.

Flush iPad Integration

Harmonious lines make square an eyecatcher in walls and furniture. Horizontal or vertical, the square can be flush-mounted in nearly every surrounding. As with all viveroo products, the iPad can be removed from square at any time and can optionally be protected against theft with an optional locking system.

Digital Room Signage

To book and manage conference rooms, the iPad in combination with a viveroo wall mount is the perfect interactive visualization of information. Thanks to integrated anti-theft options, the viveroo mount fits perfectly in commercial environments.

Table Stands

On the office table, or mounted directly to a kitchen counter, viveroo mounts are perfectly integrated in any environment.

conversion kit

Quick and Cost Effective

Use your existing wall box as the basis for installation. The power supply unit and cables are concealed inside the box. With only four screws, the Viveroo conversion kit mounts over the existing box. The iPad connects with the new kit's cable to the existing PSU via a lightning or USB-C cable.

Safe and Secure

As with all Viveroo solutions, securing the iPad in the conversion kit is simple - the iPad is securely fastened by a closure cap. The aluminum cover seamlessly hides all screws and connections.
