Safety information

! Warning	Please read the assembly instructions included carefully. Please read this free user manual completely before using your free. Please follow the instructions and recommendations to ensure proper use and maximum enjoyment.	**!**

Safety information

free and all free mounting sets are intended for use in enclosed and dry living spaces.

The following conditions must be provided:
- Operating temperature between 0° C (32° F) and 35° C (95° F).
- Relative humidity (during use): 20 % to 90 %, non-condensing.
- No external environmental influences such as oil, chemicals, salt, extensive dust, etc.

Installation, service or repairs, if necessary, may only be performed by authorized persons.

The maximum altitude is 2.000m.

The installer is responsible for selecting the proper mounting location and safe installation of free. This also applies to installation in movable parts, such as doors. The installer is responsible for performing and documenting all necessary safety tests.

All electrical installation work may only be conducted by authorized, trained electricians, always adhering to the general rules and regulations applying to electrical installation.

Should it become apparent that safe operation of free is not assured, then free must immediately be taken out of service and secured against potential misuse. If the free functions are limited, blocked or disabled, if an unusual odor is present, if noises such as scratching are audible or damage is visible, safe operation can no longer be guaranteed.

Technical changes and mistakes are excepted.

viveroo USA

Functions

Remove and insert iPad

free can be either installed vertically or horizontally
(see installation guide).

free in landscape position: Put the iPad from the left on the guide rail. Slide it to the right to the Lightning connector. Push it until you hear a **click tone** that indicates the safe hold of the iPad.

free in portrait position: Put the iPad from the upper left on the vertical guide rail. Slide it to the bottom to the Lightning connector. Push it until you hear a **click tone** that indicates the safe hold of the iPad.

All surfaces and edges are fitted with felt or slip tapes to protect your iPad from scratches and damage.

LockingSystem

free offers an optional security locking system to protect you iPad from theft. Eine separate Bedienungsanleitung liegt de entsprechend ausgerüsteten Geräten bei. The locking syster can be retrofitted any time, please see:

LockingSystem security
Article 350100

Anti-theft system for the iPad, opening with key.

Care and Cleansing

Cleanse your free as needed with a soft micro fiber cloth and clear water only. Dampen the micro fiber cloth and wipe the surfaces gently.

! WARNING: The interior of the free must remain dry. To ensure this, use only a damp cloth for cleansing.
! WARNING: Never scratch, scrape or scrub free surfaces with abrasive materials.
Installation

Use the corresponding MountingSet to install your free. All MountingSets come with specific mounting instructions.

Step 1   free can be either installed vertically or horizontally (see installation guide).

! Important: This installation guide shows the installation process for Inwall mounting with flush-mount box (MountingSet Inwall). Here free is installed in landscape position.
Fix and secure the mounting plate using the supplied screws (2.5mm hex). Tighten the screws lightly at first. Then you can adjust it to its final position using a level. Now tighten the screws.

! Important: If you use MountingSet Furniture you can attach the mounting plate directly. Please use woodscrews.

Step 2   **! Optional**: The mounting plate provides an additional mounting hole on the left side. It is located outside the box directly on the wall and gives free additional stability if necessary.

Depending on the type of wall, please select the appropriate fasteners (plugs + screw, wood screw, etc.).

Step 3   Connect the Lightning connector from the flush-mount box to the corresponding contact on the free.
The guide shows the upgrade option to connect LAN/Ethernet to the USB 3 socket, please see:

> LAN/Ethernet extension module, Article 350201
>
> Supplementary set for cable bound connection to home network. Please note that this set is a factory installed hardware.

Step 4   Fasten the free to the mounting plate using the supplied screws (2.5mm hex).

Step 5   Cover the screws with the felt-buttons.

Warranty

Warranty

free comes with a two year warranty from date of purchase by the original end customer, unless the device was repaired or replaced during the warranty period. In this case, the warranty is valid until the end of the regular two year warranty or six months following the repair/replacement, whichever comes first.

Warranty claims and verification

Should your free for any reason not perform as expected, please contact your dealer and provide the original invoice with serial number as well as a brief description of your complaint.

Warranty claims and verification

The following devices are excluded from the warranty
Devices with damages caused by:

- acts of nature,
- misuse, including but not limited to disregarding the user manual and mounting instructions,
- inappropriate handling,
- connection to an incorrect power supply,
- repairs or attempted repairs by unauthorized persons,
- use of the device in connection with third party products,
devices on which the serial number of the producer has been changed, deleted, removed or made illegible.
